

Make a Fish and Frog Collage!

Illustrations © 1970 by Leo Lionni

In the beloved story **FISH IS FISH**, a minnow wants to follow his tadpole friend—who becomes a frog—onto dry land. Can the two be friends despite their differences?

Distribute construction paper to each of your guests. Encourage kids to decorate their paper to create a pond. Think about what's in a pond—Rocks? Weeds? Mud? Add anything you like! Reproduce this page and give one to each of your guests.

With a grown-up's help, each of your guests can cut out the fish and frog shapes and paste them on their pond. They can even decorate their fish and frogs with glitter to make them look especially fancy!
